

24W LED CABINET POWER SUPPLY

Application

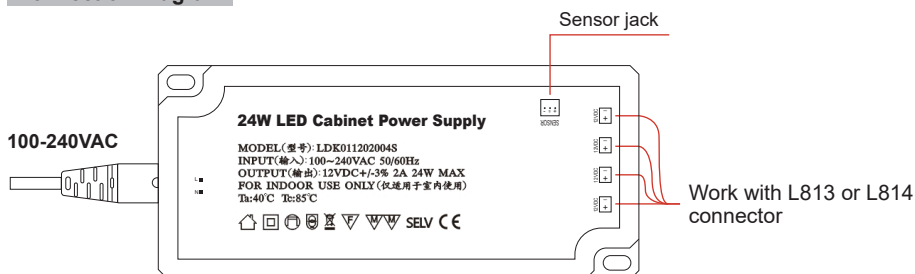

- LED cabinet light
- LED wardrobe light
- Flexible led strip light
- Rigid led strip light

Description

- The power supply is ultra-thin design, small size, high current capacity 2A, and stable output voltage.
- This power supply adopts imported IC, long-life electrolytic capacitor design, high efficiency and energy saving, short circuit, Over current & overload protection function.
- This Power supply is with 4 outlets for 12vdc led light, and 1 outlet for sensor switch.

Package

Specifications

Model No.	SUR-12024-CP	
Output	DC Voltage	12V +/-0.5V
	Rated Current	2000mA
	Rated Power	24W MAX
	Rated voltage Range	Vp-p=500mV
Input	Voltage Range	100-240VAC
	Frequency Rang	50-60HZ
	Power factor	>0.5
	AC current	0.218A@115VAC; 0.109A@230VAC
Protection	Over load current protection	OK
	Over Voltage protection	OK
	Short circuit protection	OK
Environment	Working Temperature	-25~ 80°C
	Housing Temperature	20-95% RH
Size & Material	Size	48mm*110mm*16mm
	Material	PC Flame retardant, Protection level 94V0
