# Wooden Panel LED Aluminum Profile—A2508

Customized Color can be ordered

LED Aluminum profile 1~3meter
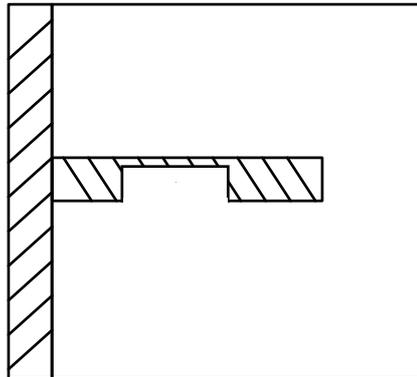

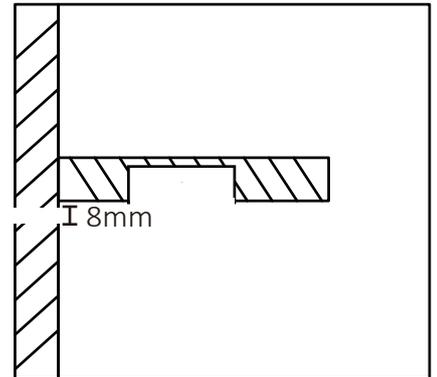

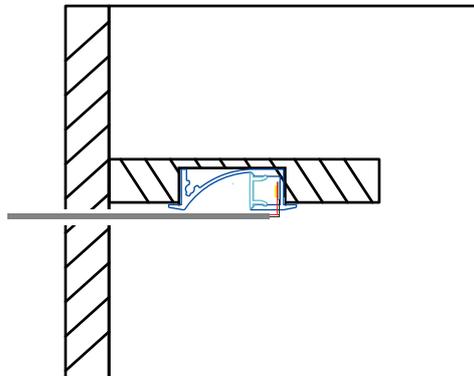

PC Cover

Endcaps *2
1 with hole; 1 without hole.

Service Environment and Installation:
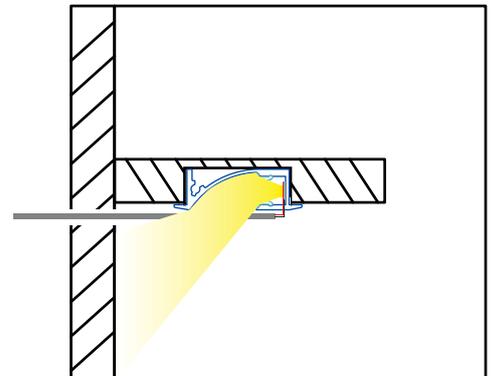

Reserve space on wooden panel for installing LED profile.

Drill a φ8mm(recommendatory) hole in the backside of the furniture, to allow power supply cable to go through.

Install LED light on the wooden panel. Connect power supply with the wooden panel LED profile.

Turn on the power and light is ON.
